6. Additional Notes or Comments  
**On this we abandon a 8" x 90' well by removing the pump and measured the depth of well. We then tried to clean well to 144' as recorded on Well Driller's Log #21426. Well solid on the bottom at 90 feet. We believe that Well Log #21426 IS NOT the log for this well. We perforated with mills knife from 66' to 86'. We then pumped 2.25 cubic yards of neat cement mixed 5.2 gallons of water per sack. We pumped using tremie pipe from botton to top of well.**
