Static water level 0 feet below land surface
Artesian flow G.P.M. P.S.I.
Water temperature ° F Quality

8 WELL PLUGGING MATERIALS
Material Used
From feet to feet none [] Pumped [] Poured

6 Additional Notes or Comments

Well #2
This well was not abandoned per the normal State
requirements. This temp. dewatering well was installed
within the banks of the Truckee River in native gravels.
We received the approval not to install a concrete slurry
seal because it would effectively not seal anything based
on the well location.

Neat Cement Fluid Weight lbs/gal
Bentonite Grout % bentonite
