6 Additional Notes or Comments
Measured depth of well at 63'. Measured static water level at 61.9'. Since well was dry, we installed 63' of 2" tremmie pipe. We then mixed 14 bags of Portland Type II cement with approximately 65 gallons of water and pumped in from bottom of well to the surface. There was no log on this monitor well. We did remove 50' of small sampling pump.
