6 Additional Notes or Comments

This hole was plugged due to safety concerns. The hole caved in on our drill string and we were able to get it out before the ground on the surface started caving in around the drill rig.

It was just a borehole with a conductor cemented in place. We moved over and started a new hole with a deep conductor. That hole was completed and a well log was turned into state.

Neat Cement Fluid Weight 15 lbs/gal  
Bentonite Grout N/A % bentonite  
Date Started JAN 21 2014  
Date Completed JUN 21 2014
